

WANDBETT MODULE KATALOG

Wall-Bed Module – unsere Module sind eine eigens von uns entwickelte Kollektion, die dementsprechend an unsere Wandbetten angepasst ist.

Die Module sind immer in der Höhe an die Wandbetten angepasst (ausser WB50V und WBS-series).

Die Schubladen Module basieren auf den Systemen:
- Riex Slim Track (hier ist ein Griff notwendig)

Nomet matt

- Blum LegraBox + Tip-On

Die Tiefe der Module ist verschieden, um die Funktionalität so gut wie möglich zu gestalten. Bei Modellen mit Sofa's bitte unbedingt zu beachten, dass die Armlehnen über den Korpus des Schrankes ragen.

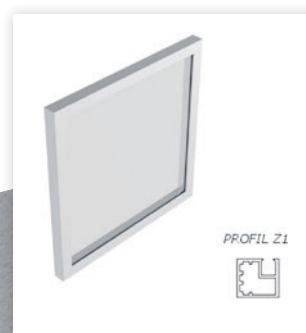

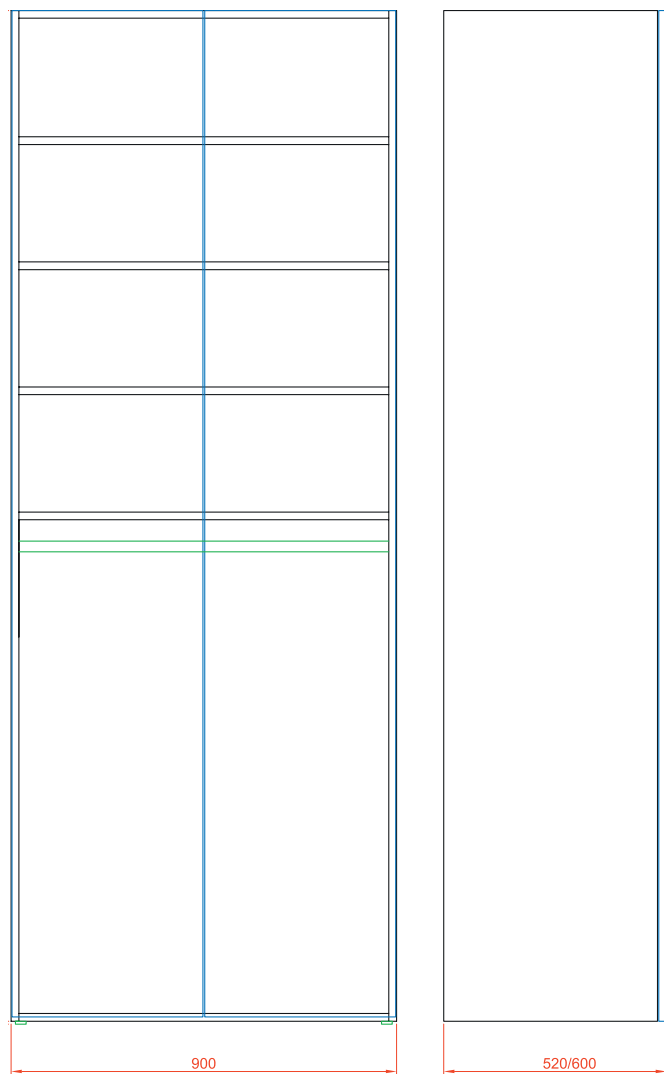

Also wenn wir ein Modul mit zB Türen, Schubladen direkt anstellen möchten, brauchen wir zB. ein M-5 oder M-B4 Modul zum zwischen stellen.

M-A1

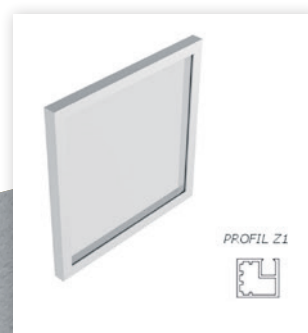

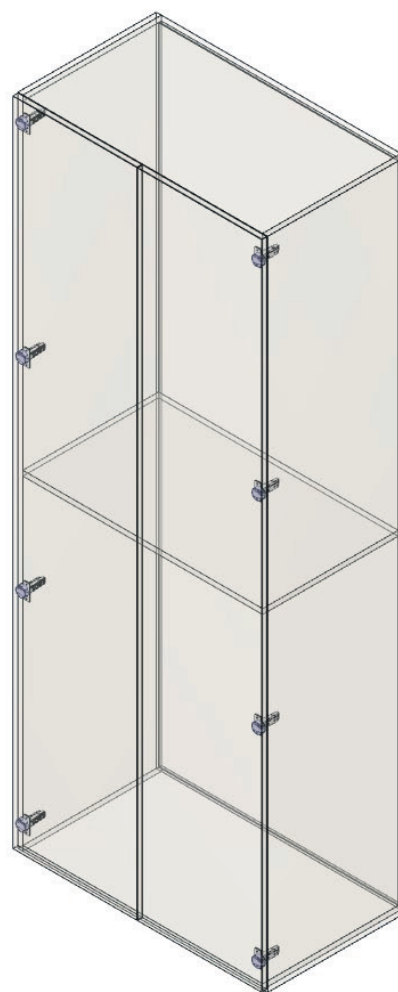

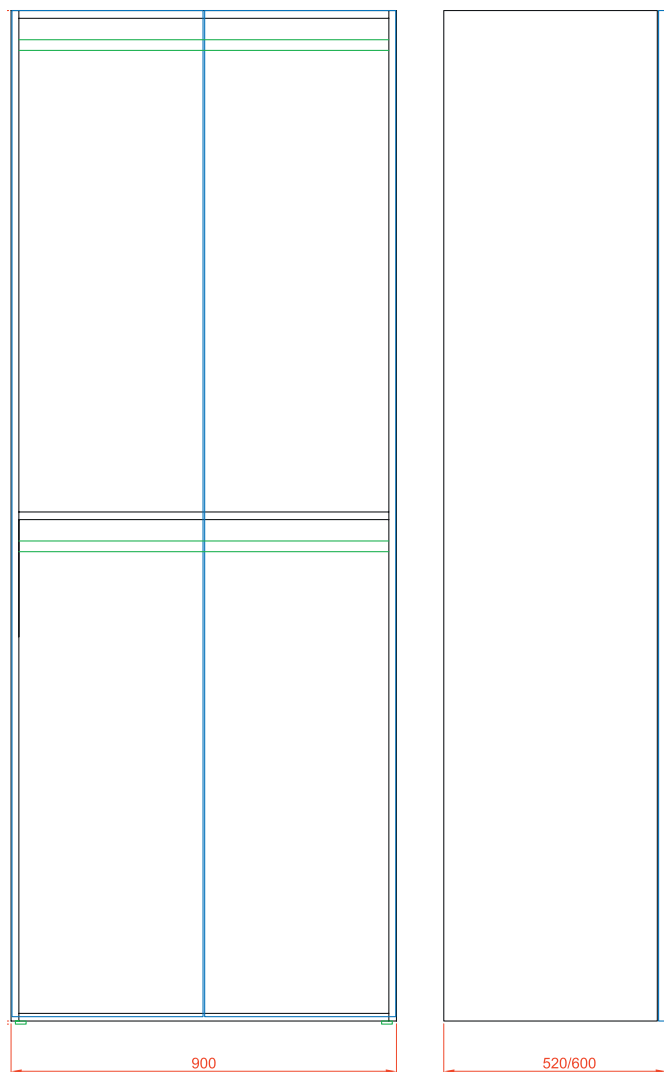

M-A1

- 3 verstellbare Regale
- 1x starres Regal
